DETAILED ACTION

1. Claims 16-21 are pending. Applicant previously cancelled claims 1-15.
2. Pursuant to the June 1, 2004 Amendment and REMARKS the previous Office Action is withdrawn.
3. Further updates to the specification, e.g. recent patent numbers to related applications, is requested.

Claim Rejections - 35 USC § 103

4. Claims 16-21 are rejected under 35 U.S.C. 103(a) as being unpatentable over Krenzke et al., US 6,338,097 in view of PR newswire.

Krenzke discloses a time keeping and expense tracking system for processing time entries, e.g. 15, via a computer network, e.g. CATS an approval function, e.g. 65, and a database for storing approval data, e.g. 26.

Krenzke does not explicitly disclose a server, a memory, communication channels, or a bus entity.

PR Newswire discloses common knowledge business practice of rewarding compliant employees with an award being granted to the employee when complying with appropriate guidelines, e.g. increasing a company's business performance.

To have provided an employee with an award for complying with specified guidelines for Krenzke would have been obvious to one of ordinary skill in the art in view of PR Newswire. Doing such would reward efficient and productive employees with common knowledge employee incentive awards. It is noted that an Internet computer system, e.g. server, memory, communication channels and bus are common knowledge elements extremely well known at the time the filing of the invention. To have provided such for Krenzke, as modified by PR Newswire, would have been obvious to one of ordinary skill in the art.

5. Further pertinent references of interest are noted on the attached PTO-892.
